INTRODUCTION

Ireland is your source of world class software and service solutions. Ireland has over 600 software companies, employing approximately 30,000 people, generating 10% of Ireland's exports with total annual revenues of £12billion. Since the 1980's; Irish companies established an excellent reputation delivering high quality software products, services and business solutions.

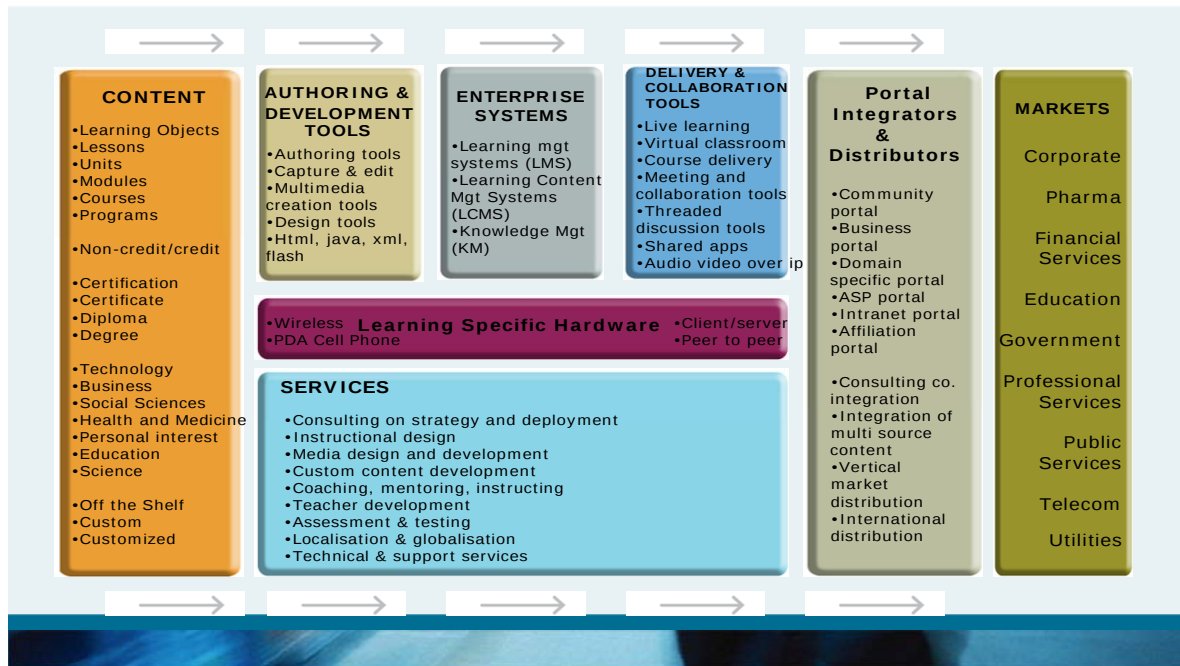

The Irish software sector offers excellent opportunities to a broad range of organisations seeking leading edge innovative business solutions. As the Trade and Technology Board of the Irish Government, Enterprise Ireland is the gateway for organisations looking for world class solution providers. Enterprise Ireland can introduce you to the providers that meet your specific strategic and business needs.

This directory is a guide to help you identify and locate the most appropriate solutions from Ireland.
